

# WeatherLink<sup>®</sup> Console

## Innovation:

- Brilliant, interactive HD display
- Customizable dashboard
- Personalized real-time data viewing
- Create charts & set alarms
- Upload data to the WeatherLink Cloud

## The smart way to view and stream live weather data

The WeatherLink Console revolutionizes the way you access, analyze, and understand your hyperlocal weather data reported by your Vantage Pro2™ or Vantage Vue® sensor suite, or your custom network of multiple Davis sensors. One intuitive device lets you receive and display data from your local network and connect to Wi-Fi to push your data to the WeatherLink Cloud.

Temperature

Wind Chill & Head Index

Humidity & Dew Point

Barometric Pressure

Rainfall & Rain Rate

Wind Speed & Direction

AND MORE...

### KEY FEATURES

Use the vibrant HD touchscreen to easily navigate, view, and analyze your weather data on one intuitive device.

Customize the dashboard to show up to 21 parameters – from temperature to wind to rain – and see the information that matters to you.

Use the full database of historical records stored right on the console to create custom graphs and analyze your data.

Choose from hundreds of parameters and a dozen sounds to get notified about the environmental changes you care about most.

The WeatherLink Console is a fully functional and powerful data display, storage, and analysis tool on its own – no Wi-Fi required. Or you can connect to Wi-Fi to join the WeatherLink community and upload and share data safely and securely.

# The most powerful weather console on the market

The WeatherLink Console works with both the Vantage Vue and the Vantage Pro2. Mix and match up to 8 weather stations or Davis sensor transmitters. Giving you the ability to connect over 80 sensors in thousands of combos to one WeatherLink Console. Get all this data delivered at the fastest speeds on the market.

**80+**

Connected sensors to one WeatherLink Live

**10+**

Different sensor types

**Touchscreen**

Interactive HD display

**1,000FT**

Transmission distance

**Live Data**

Real-time data updates

**Local Network or Wi-Fi**

Leverage Wi-Fi to join the WeatherLink community

# Monitor your environment

Configure a custom network of over 80 sensors on 8 transmitters so you can see data from sensors in the garden, by the pool, out in the garage, and down in the wine cellar – all with one WeatherLink Console.

# Data viewing with WeatherLink Cloud

Access your data on Weatherlink.com and App from any connected device via the WeatherLink Cloud. Leverage the WeatherLink API to easily integrate weather and sensor data into your own innovative applications.

## TRY THE MOBILIZE APP

With the Davis Mobilize App you can quickly browse sensor data, create custom reports, set and receive alerts, and share information with others.
